MedlmaView

**Versatile Viewer for
 Medical Images**

MedlmaView

With **MedlmaView** viewing of medical images in DICOM (Digital Imaging & Communications in Medicine) format has become possible on any Windows computer.

MedlmaView displays images from any modality and provides various tools for navigation, image manipulation, or output.

MedlmaView opens images from the file system, DICOM CDs, or the web: one viewer for multiple purposes.

The integrated online help simplifies the usage further.

Main Features

- ◆ **Intuitive Windows Graphical User Interface**
easy to use, online help at a push of a button.
- ◆ **Multi-Modality Viewer**
supports any imaging modality, independent from manufacturer, all usual formats supported.
- ◆ **DICOMDIR Browser**
visualize hierarchy between Patients, Studies, Series, and Images, open by mouse click.
- ◆ **Suited as "Viewer on CD"**
view images directly from (patient) CDs, customizable for hospitals or radiologists, requires only few resources.
- ◆ **Loading of Images from the Internet**
open images via HTTP or FTP, WADO supported.
- ◆ **Save as Bitmap or JPEG File**
for exporting to independent formats.
- ◆ **Print Functionality**
for output on any printer.
- ◆ **Header Dump**
displays detailed header information.
- ◆ **Multiframe Support**
navigating through images with multiple frames.
- ◆ **Scrolling of Series**
navigating through images belonging together.
- ◆ **Animation, "Cine"**
view movies of multiframe or series.
- ◆ **Display of Essential Header Data**
information about important patient or image data can be displayed or hidden.
- ◆ **Windowing**
change center and width (brightness and contrast) of images by mouse move.
- ◆ **Lookup Tables (LUT)**
for displaying images in pseudo-colors.
- ◆ **Pixel Lens**
display intensity values of selected pixels.
- ◆ **Zoom and Pan**
with mouse wheel and cursor keys.
- ◆ **Multi-language Support**
currently English or German, other languages possible.
- ◆ ..

System Requirements

- ◆ Processor eq. Intel 486/ Pentium I or better.
- ◆ Microsoft Windows 95/98/ME/NT/2000/XP/2003/Vista/2008 32 or 64 bit.
- ◆ Memory 16MB of RAM (64MB or more recommended).
- ◆ 3 MB hard disk space (only install version).
- ◆ CD drive (only CD version).
- ◆ VGA or higher resolution monitor.
- ◆ Mouse or other pointing device.
- ◆ No administrator privileges required.

Costs and Fees

MedlmaView is free for

- ◆ Private Users (like patients).
- ◆ Education and Research.
- ◆ Trial purposes (usually 30 days).

Customization is subject to a charge.
Please contact us for details.
